TALLAHASSEE, FLORIDA

1985

Cover: "A Nation of Readers" was the theme of National Library Week 1985 and of the twenty-cent commemorative stamp issued by the U.S. Postal Service on October 16, 1984. The commemorative stamp shown on the cover is based on Mathew Brady's daguerreotype of President Abraham Lincoln reading to his son Tad. (Copyright © 1984, United State Postal Service.) The daguerreotype and Lincoln's personal papers are housed in the Library of Congress.

PREFACE

This edition of the Florida Library Directory contains statistical data for FY 1983-84. It includes address listings as supplied by public, academic, institution, and special libraries, and by district school media centers. It includes a name index. The computerization of the statistical data and address listings for the production of this year's Directory was done by E. Walter Terrie of the Florida State University Center for Population Studies, who was ably assisted by Ron Humphries.

Statistical information was compiled from the annual reports submitted by cooperating public and institution libraries. The information reported generally follows the categories established by the National Center for Education Statistics (NCES). Public libraries used a form devised by the State Library which incorporates the Library General Information Survey (LIBGIS) form, the 1982 Florida supplement, and additional questions to provide statistics on automation and output measures. The survey form was designed to collect more information in an easily readable and understandable format. Academic statistical information for the State University System libraries was provided by the Board of Regents.

In using the data, it should be noted that population figures are from the Florida Estimates of Population, University of Florida, as of April 1984, and refer to permanent resident population only. Total population served by public libraries as reported in statistical tables 1,6, and 7 adds to more than the total population of Florida. This is because some municipal libraries and county libraries serve the same population group. Some libraries included in the address section do not appear in the statistical section. This is because the reports were not received or because they failed the meet the conditions outlined on page 117 of the Tables section.

Appreciation is expressed to all of the State Library staff who helped with the compilation of the Directory and especially to Virginia Grigg, Gwen Payne, Kathleen Mayo, Laura Palazesi, Edith Paschall, Betty Ann Scott, Susan Whittle, Loretta Flowers, Joyce Elder, Bob Gorin, Bill Paplinski, and Bette Searinge. Also to Sandra Ulm of the Florida Department of Education who edited the school media center section.

A special note of appreciation is due to the librarians of Florida whose cooperation makes this publication possible.

-- Helen Morgan Moeller

Public Library Statistics

STATISTICAL ANALYSIS FOR PUBLIC LIBRARIES
1983-1984

Data is compiled from annual survey forms distributed to public libraries in February 1985. In addition to the standard reporting form, a new short survey form was used for the first time this year. This form was distributed to libraries which had not reported in the last two years. Eleven libraries which might not have otherwise reported, returned this form. Except in cases of obvious inconsistencies where changes were made in consultation with the libraries concerned, the information is published as submitted.

Items which were left blank on the survey forms appear as — in the Statistical Tables. Items which were not asked on the short form appear as N. A. in the Statistical Tables.

The survey requests information which is not reported in the Tables. This information is also compiled and kept on file at the State Library. Librarians may request information from these files at any time during the year.

Florida public libraries circulated 39,181,781 items to 2,831,290 registered borrowers through 326 service outlets.

Florida public libraries have 647 librarians who have earned a master's degree in library science. Additional staff total 2,393 and there are 634 regularly scheduled volunteers. All numbers for staff are expressed in full-time equivalents.

The libraries offered 13,868,334 books plus 2,874,120 volumes of other types of materials to 11,302,185 residents, or 1.48 volumes per capita. Because some residents are served by more than one library, the number of residents served exceeds the population of Florida. This does not mean that every resident of Florida receives free library service. (See Status of Library Development 1985, page 168). Circulation per capita was 3.47. The figures for FY 1983 were 1.42 volumes per capita and 3.48 volumes per capita circulated. Approximately 7,798,508 reference questions were asked. This represents .69 questions per capita, and each book circulated an average of 2.34 times during the year.

Revenue for FY 84 totaled $90,171,301 and was received from four main sources: Local (municipal and/or county governments), 84%; State of Florida, 6%; Federal government, 2%; and other, 8%. This compares to FY 83 revenue sources of Local, 86%; State of Florida, 6%; Federal government, 2%; and other, 6%.

The libraries reported a total operating expenditure of $85,653,816 which equaled $7.58 per capita. In FY 1983, the figure equaled $6.93 per capita, and in FY 81, $7.05 per capita.

Population projections were taken from Florida Estimates of Population, April 1, 1984, State, Counties, and Municipalities (prepared by the Population Program, Bureau of Economic and Business Research, University of Florida, February, 1985). When the group that receives free library service did not correspond to county or city boundaries, we used figures provided by the library. These exceptions are noted in the footnotes in Table I.

Some libraries which appear in the address section are not included in the statistical section. This omission was based on the failure to meet — or to be affiliated with a system that meets — any or all of the following criteria set up in Library Statistics: A Handbook of Concepts, Definitions, and Terminology (Chicago, ALA, 1966), page 30. The library must:

1. Give at least 10 hours of public service per week.
2. Have a book collection of at least 2,000 volumes.
3. Purchase at least 200 volumes per year.
4. Expend at least $1,000 per year.

POPULATION SERVED

(Footnotes to Table 1, Column 4)

1. Orange County Library District is for Orange and Osceola counties minus Maitland and Winter Park.

2. Miami-Dade population was computed by subtracting from the 1984 Dade County figure the population figures for: Hialeah, North Miami, Miami Beach, North Miami Beach, Surfside, Bal Harbour, Bay Harbour Islands, and Opa-Locka.

3. Surf-Bal-Bay serves the population of Surfside, Bal Harbour, and Bay Harbour Islands.

4. Destin population is figure reported by librarian for service area.

a) Includes government documents not in separate collections; includes bound periodicals; excludes microforms.
b) The number of library units actually withdrawn or lost from the collection, regardless of how the units were originally acquired.
c) Microfilm reels converted on a one to one ratio
d) Microform pieces converted on eight to one ratio, and unbound periodicals calculated at six volumes per lineal foot.
e) A subscription is a standing order for any publication having a collective title and an indefinite publication life, is published more frequently than once a year, and is acquired with state funds. Newspapers are included. Excluded are monographs which are continuations or standing orders and gift subscriptions.
f) Official Planned Enrollment as approved by the Board of Regents
g) Only those functional areas admitted and funded by the main library are included. The main library is counted as a branch.
